

Electronic target (U1H), with radio communication and mil spec monitor

Target model U1H is mainly designed for long range shooting. Excellent for sniper training.

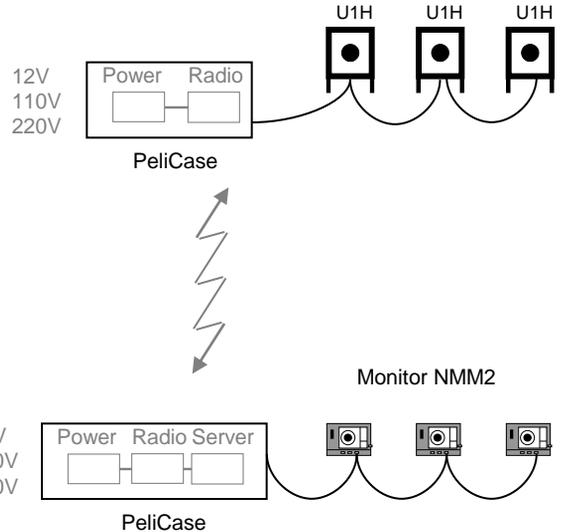

With radio communication and battery solution, the system is totally flexible, for optimal training effect at various distances.

The target frame is made of 42mm plywood.

3 sensors are mounted at the bottom of the target, with the inspection hatch in front.

The lowest 25 cm of the acoustic measuring chamber, has to be covered in front, in order to secure the sensors and the internal target electronics.

The target has a vertical rubber band to seal the measuring chamber.

Firing line

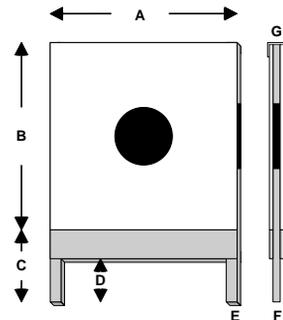

Recommended use :

- 100m-1500m
with radio (or wire) communication

Technical :

Dimensions:

A	1822 mm
B	1822 mm
C	550 mm
D	300 mm
E	100 mm
F	42 mm
G	102 mm

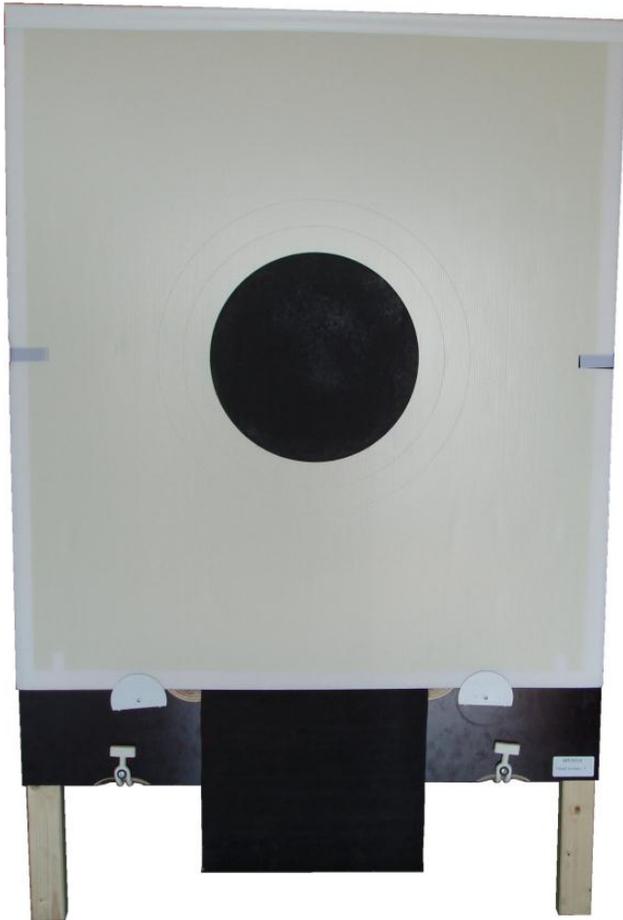

Temperature range -30 til + 60°C

Vertical rubber band 2 x 1000 x 5000 mm

Weight..... Approx. 75 kg

Supplementary equipment :

Specific aiming images.

Electronic target (U1H), with radio communication and mil spec monitor

**Extremely easy to vary/change the shooting distances,
in order to train the snipers effectively;**

At the firing line there is only a monitor and a Pelicase (w radio, server and battery).
With 3 or more monitors, there is a need for mains power / generator at the Firing Line.

Close to the targets, there is a similar Pelicase (w radio and battery)

**No wire between the target(s)
and the firing line!**

**No calibration before shooting,
just plug and play!**

**Monitor built on LCD technology, designed for
all-year outdoor use (- 40° C to + 70° C).**

No need for overroofed firing lines.

- The monitor is based on a chassis made of stainless steel. Waterproof.
- The display is readable in bright sunlight, and is protected by a laminated, anti-reflective coated glass, able to withstand the impact of cartridges from automatic weapons.
- Solid mil. spec. contacts.
- "Vandal proof" buttons.
- A smart card reader is standard.
- The monitor is easy to operate, with dynamic menus.
- Software for all kind of human targets.
